I am concerned that a month's delay in getting the cumulative exposure and health effects information will make it difficult for me to meet the scheduled date for completion (7/30/10). I have attached a counter proposal. See the bolded notes in the spreadsheet. We can discuss tomorrow.

Subject: deliverables schedule

Bob and Amishi,

We have spent some time recently re-evaluating the status and steps forward with this project and consequently wish to propose an updated deliverables schedule (attached). A few key points:

1. The date for RfC development is unchanged
2. The consultant will begin earlier to allow for greater input.
3. We have built-in a period for internal discussion of the plan for populating the JEM (1/29-3/1). The previous schedule didn't allow for input/questions/concerns from Bob prior to the plan going out for peer review. The updated schedule should allow for a more final version of the plan to receive the review.

Please let us know what you think.

Tim
